HAY

ABOUT

HIGHLIGHTS

- The Arbour family is available as a two- and three-seater sofa and a Club Sofa and Armchair
- Arbour is a compact and durable sofa with a sustainable profile
- Available in selected EU-Ecolabelled upholstery options
- It is built to last, using separate components that can easily be replaced
- The cushions are made with recycled filling and removeable covers
- The cushions are secured to the seat with a Loxx button
- Available in a variety of textiles and frame colours and finishes
- Suitable for a wide variety of private and public environments
- Qualified for contract use

ARBOUR DESIGN BY ANDREAS ENGESVIK & DANIEL RYBAKKEN

Designed by Norwegian designers Andreas Engesvik and Daniel Rybakken, the Arbour series embodies the concept that design should follow construction. Assembled from independently produced components, Arbour was developed to create a compact, comfortable and durable sofa. The solid wooden frame clearly defines the sofa's space, creating a contrast that amplifies the soft, organic seats inside the architectural exterior. With its logical construction and uncluttered design language, Arbour fuses its distinctly Scandinavian aesthetics with high comfort and great durability. The Arbour family comprises a two- and three-seater sofa, and the more compact Arbour Club Sofa and Armchair, all available in selected EU-Ecolabelled upholstery options.

Norwegian designer Daniel Rybakken studied design at the Oslo School of Architecture and the School of Arts & Crafts in Gothenburg, Sweden, before beginning his own practice in 2008 and has since received numerous awards and international acclaim for his designs. Fellow Norwegian Andreas Engesvik studied Art History at the University of Bergen, Norway, before studying Design at the National College of Art and Design, where he graduated with his Masters in 2000. He established his own design studio in 2009, and has since won a number of international awards. The Arbour Eco sofa is a collaboration project that brought the two designers together with HAY, in their quest to design an eco-friendly sofa that reflected their Nordic heritage and focused on its associated qualities of honesty and simplicity.

Applies to EU-Ecolabelled fabrics.
Does not apply to CMHR foam.

EN TEST
EN 16139 - L2
Non-domestic seating

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
