Missing Chair

Regular Company

The Missing chair appears as if a simple line drawing has sprung into life. Sensual yet strong, the soft curve of each line creates a whimsy that is hard to describe. Straight lines have been softened, allowing the timber seat and back to appear as if floating above the thin steel frame. What remains are the bare essentials in our own interpretation of the humble cafe chair: light, stackable and durable, completed by a highly comfortable silhouette.

About the designer Regular Company

The Croatian studio Regular Company works across design fields including product, interior, branding and digital design. Headed by Ruder Novak-Mikulic, Marinko Murgic and Tihomir Filipec, the studio's work presents a unique ability to mix highly functional pieces with an experimental approach to form and function. Modest yet intriguing, their work has won a number of awards since their formation in 2015.
