

## Terramare / Armchair Design / Chiaramonte / Marin

Attractive shapes and large dimensions characterise the Terramare sofa collection by Studio Chiaramonte/ Marin, designed to create cosy and personal settings both indoors and out. A complete range of furniture for dining and living areas. The main feature is the die-cast aluminium core, reminiscent of the most basic system that binds stalks of cane to one another, a unique detail. Tables and the elegant armchairs blend in with the essential lines, the style and the design of the sofas to create highly attractive dining areas. Terramare's material mix is original and innovative: eco-leather back with vintage details, aluminium or stoneware tops, colourful, water-repellent outdoor fabrics.

### Description

Code: **728**  
Line: **EMU Advanced**  
Typology: **Lounge Chairs**  
Collection: **Terramare**

Static Load: 200 Kg

### Technical Info

Width: **61 cm**  
Depth: **53 cm**  
Height: **79 cm**  
Weight: **4.80 Kg**  
Static Load: **200 Kg**  
Seat Cushion:

### Packaging

Packages: **1**  
Pieces for pack: **2**  
Dimensions: **90x60x67 cm**  
Volume: **0.361 m<sup>3</sup>**

Polyethylene bag and cardboard box

Terramare / Armchair  
Design / Chiaramonte / Marin

### Materials

#### **Aluminium**

Aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the elements and powder coated.

**Maintenance:** To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter.

#### **Eco-Leather**

The eco-leather is made of compacted Nylon micro- bre in polyurethane bath. It is then coated with polyurethane of the same colour.

**Maintenance:** To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter. To ensure the long life of the eco-leather, use a mild detergent and soft cloth to clean it. Over time, eco-leather will acquire delicate signs of use that increase its beauty and give it greater depth and allure.
