

Raimond II Dome

RAIMOND PUTS

The Raimond Dome is made of the same mathematical ingredients as its spherical family members. Also punctuated by tiny LED lights but amplified with a powerful light source in its centre. Looking at the Raimond Dome feels like staring into the soft glow of a starry night, making it the perfect light for dining under the stars. Designer Raimond Puts passed away before he could see the final design. Together with Raimond's wife, Tis Ernst, Moooi completed the Raimond Dome. Raimond Dome 79 is compatible with our Wireless Wall Switch, for quick and easy dimming that gives you full control over the light output.

Detailing

The Raimond Dome might be a half sphere but it surely is a complete lamp! It features a spotlight that shines down.
