

Caboche Plus  
*Urquiola + Gerotto, 2005 - 2021*

PMMA, steel and liquid coated aluminium.

220 / 240V: LED included 26W 2700 K 3645 lm CRI>90 \*  
Available On/Off, dimmer and MyLight  
120V: LED included 32,5W 2700 K 3645 lm CRI>90 \*  
Available On/Off + 1-10V dimmer

Energy class A+

Colours: transparent, grey

Ceiling lamp with diffused light. Structure comprising transparent PC arches, onto which a series of PMMA spheres are applied, using the new twist lock system. The lamp body consists of a powder coated steel structure, which incorporate the LED board, designed specifically by Foscarini, thereby obtaining a superior level of colour rendering (CRI) and retaining the same colour temperature as a halogen light source (degrees Kelvin). Satin-finish PMMA diffuser.

**Design Concept →**

Caboche was created in 2005 as a result of the desire to create a precious and charming lamp like a pearl brace-let, accommodated with a focus on light weight and transparency. Rich, bright and sophisticated, it was a success from the onset, becoming one of Foscarini's biggest best-sellers, and went on to become a genuine icon of designer lighting. It is now presented in the Plus version, with a new LED which guarantees a more in-tense light yet without creating glare. Total transparency wins in Caboche Plus, as your eyes roam through the entire lamp thanks to the new zigzagging arches which do not shield the light. What's more, the new attachment system, which is even simpler and more user-friendly, guarantees greater stability for the sphere and makes it simply to use.

Patricia Urquiola  
Eliana Gerotto

Her style is unconventional, emphatic and elegant, balanced between humanistic sensitivity and technological research. An internationally renowned architect and designer, Patricia Urquiola has received multiple major acknowledgements. Some of her projects are exhibited in several museums and collections. Together with Eliana Gerotto, industrial designer, curator of outfits and interior decorator, she has designed Caboche, a luminous emotion that stems from a combination of technology and creativity.

**Light →**

Direct  
Diffused

When it is switched on, the light is diffused inside the spheres like multitude of illuminated crystals and guaranteeing diffused light in its surroundings. A luminous emotion also guaranteed by the new light assembly - affording high energy efficiency levels and durability - which has been completely re-engineered in terms of its lighting technology, to ensure even greater light intensity and diffusion. Caboche is a mosaic of refractions, the perfect blend in a single form of various individualities, which combine in one element both the lamp and the lighting effect.

**Destination / Use →**

Caboche is a gem of creativity and technology, today, in addition to the transparent version, is has been supplemented with the grey colour. It is destined to play the starring role in both private and public settings, teaming visual impact with light weight, decorative appeal and functionality.
