

BONBON

DESIGN BY ANA KRAŠ

Ana Kraš' Bonbon Lamp is a hand-woven lamp that uses an original weaving technique to create a textured lampshade. Inspired by her drawings, Ana perceived the lines as threads that could fill the blank area around a lamp, resulting in one-of-a-kind pieces that were featured in numerous art shows and publications. In her lampshade collaboration with HAY, she uses the same idea of wrapping wool-nylon yarn around powder-coated steel frames to create individual lampshades that all vary slightly in their appearance and texture.
