

# RILUMINATOR

Pietro Chiesa, 1932 - 2014 Edition

Riluminator is the makeover of Luminator designed by Pietro Chiesa in 1932. This lamp shares with the classic icon floor lamp not only its geometric, torch-like shape, but also the direction of its light source. Reworked in a plastic technopolymer produced with "rotation" technology, the body is cylindrical at the base, opening out as it rises to create a cone-shaped trunk that characterizes the design of the object, it houses and hides the LED light source. Riluminator is available in three contemporary colours: red, grey and white, to highlight the continuity and essentiality of unmistakable design.
