NAP™

DESIGN BY KASPER SALTO, 2010

NAP™ comes in several varieties: With 4 legs (of steel or wood), sled and as bar stool or counter stool, all with and without arms. The shell is moulded and dyed through in nylon (Polyamide – PA6). The back of the shell has a high-gloss surface, and the front is matt and ribbed to emphasise the geometry of the chair.

The base is available in chromed steel or powder coated in colours matching the shell. The wooden legs are made of natural oak veneer. The sled base as well as the bar and counter stool are only available with legs in chromed steel.

Colours:

Milk white, Silver grey, Pepper grey, Verona green, Midnight blue, Coral red and Sky blue.

Accessories:

The chair is also available with seat upholstery - assembled when delivered or purchased separately.
