

REVOLVER STOOL

DESIGN BY LEON RANSMEIER

Sharing the same bearing mechanism as the Revolver Stool, which enables the seat to rotate 360 degrees, Leon Ransmeier's Revolver Stool offers a versatile and functional design. The slim, slightly dished seat with curved edges is offset by straight, angled legs, creating an uncluttered silhouette that offers limitless applications. Made in powder coated steel with a choice of colours, this lower version is suitable for a wide range of public and residential environments.
